

MOBILE EQUIPMENT SAFETY TIPS

For Operators

- ⚠ Inspect Before Use – Check brakes, lights, fluids, and tires
- ⚠ Use Seat Belts and Other Safety Equipment
- ⚠ Wear PPE per worksite req's– Hard hat and high-vis gear
- ⚠ Use Three Points of Contact – When entering/exiting
- ⚠ Stay Alert – Watch for blind spots and moving workers
- ⚠ Use a Spotter – When reversing or in tight spaces
- ⚠ Follow Site Rules – Speed limits and safe routes
- ⚠ Secure Loads – Ensure balance and stability
- ⚠ Adjust for Weather – Slow down in poor conditions
- ⚠ Keep Cab Floor and deck free of objects that can interfere with operations

For Workers Near Equipment

- ⚠ Be Seen – Wear high-visibility clothing
- ⚠ Make Eye Contact – With operators before approaching
- ⚠ Use Walkways – Stay out of equipment paths
- ⚠ Never Assume Right of Way – Equipment has blind spots
- ⚠ Listen for Alarms & Signals – Stay aware of movement
- ⚠ Stay Clear of Swing Radius – Avoid being struck
